

PRINCESS RESCUED
IN BIG SHIPWRECK

P. & O. Liner Delhi Stranded
Off Morocco, with King
George's Sister and
Nieces Aboard.

ROYAL PARTY IN OPEN BOAT

Duchess of Fife's Daughter
Falls Into Raging Sea and
Is Carried to Land by
Sailor—French Blue-
jackets Drowned.

London, Dec. 13.—King George's sister, the Princess Royal, Duchess of Fife, with her two daughters, Princesses Alexandra and Maud, were rescued in a lifeboat to-day when the Peninsular and Oriental Company's liner Delhi stranded during a storm on the coast of Morocco, just east of Cape Spartel.

While being taken ashore by the long boat of the British armored cruiser Duke of Edinburgh, they were thrown into the water by the capsizing of the boat, one of the daughters having a narrow escape from drowning. She was rescued by a sailor and carried to land with the others, all suffering severely from the bitter cold.

As soon as news of the wreck reached Gibraltar and Tangier all available tugs and several war vessels were dispatched at full speed to the scene. Lifesaving apparatus was also sent both by land and sea.

Among the earliest to answer the wireless calls for assistance was the French cruiser Friant, several bluejackets from which were drowned by the capsizing of a launch while assisting in the rescue.

Princess Sends Message.

Queen Alexandra, aurally was deeply concerned, but had early news of the safety of her daughter by a personal message from the princess, saying "All are safe on board the L. I. I." The message was sent through the wireless station at Cadix, and the princess added a request that it should be made public.

The princess royal and her daughters were landed at Cape Spartel, where they had to wait in the driving rain for the Duke of Fife, who, of course, did not come ashore until all the women and children aboard the Delhi had been landed. Then they drove, still in a heavy downpour of rain, across the country to Tangier, six miles distant, whence they will board a warship and proceed to Gibraltar.

The governor of Gibraltar, Lieutenant General Sir Archibald Hunter, has prepared rooms at the Government House for the reception of the princess royal and her family.

At 1 a. m. in a Thick Fog.

The Delhi struck at 1 o'clock in the morning in a thick fog. Immediately all the passengers hurried from their staterooms, half dressed, and put on life preservers. Water poured steadily into the cabins, while enormous seas, sometimes most high, broke over the vessel. Signals of distress were sent out by wireless, and the first warship to arrive was the French cruiser Friant.

It was long past daylight before the Friant's steam launch was able to come alongside the Delhi. In the mean time preparations were made aboard the stranded steamer to send the women and children ashore. One of the boats of the Delhi was lowered and filled with passengers. The launch finally succeeded in setting this tow, and then steamed to the cruiser Duke of Edinburgh, where the frightened women and children were safely taken aboard.

The Duke of Edinburgh, with thirty-eight of the rescued passengers from the Delhi, arrived at Gibraltar to-night. It was expected that the royal party would reach Gibraltar aboard the battleship London, but latest reports state they had decided to remain for the night at Tangier, where they are housed in the British Legation.

Woman Describes the Wreck.

One of the women passengers, in describing the wreck, said that there was not the slightest panic after the vessel struck. The passengers were summoned to dress and go on deck, but were assured that there was little danger. Arriving on deck, they found the fog dense and the sea beating heavily against the ship. There was little confusion or excitement. They remained assembled on deck until 10 o'clock in the morning, when the Friant's boats, after considerable exertions, succeeded in conveying some of them aboard the British cruiser.

The Delhi is reported to be in a critical position. She is broadside on the rocks. The salvage vessel Gilemusa has sailed from Gibraltar with lighters, and will make an attempt to save the specie, mails and luggage. The weather has moderated somewhat, but heavy seas are still breaking over the stranded vessel. The new British cruiser Weymouth left Gibraltar immediately on receipt of news of the disaster, carrying a detachment of artillery in charge of a full outfit of lifesaving apparatus. The battleship London and the armored cruiser Duke of Edinburgh picked up the Delhi's wireless calls for assistance and were soon upon the spot.

Apparatus Sent by Land.

The Admiralty also ordered a rocket apparatus to be sent by land to assist in the rescue of the passengers, as it was feared that communication with the vessel from the sea would be difficult owing to the rough weather.

The Peninsular and Oriental Steam Navigation Company has received a telegram from its agent at Gibraltar saying that all the passengers of the Delhi had been brought safely ashore. The work of salvaging the liner is proceeding. The weather, however, is becoming worse, and the smaller vessels assisting in the rescue work are finding difficulty in keeping near, owing to the roughness of the surf.

The Delhi carries about one hundred saloon passengers, while another hundred are in the steerage.

WATER ENTERS CABINS

Royal Ladies Literally Dropped
and Caught in Small Boat.

London, Dec. 14.—A Tangier dispatch to "The Times" says: "The royal party had not even time to dress. Some were night dresses, with such coats as they were able to pick up in the hurry of the moment."

"The vessel listed shortly after striking. Water entered the lower cabins. Great difficulty was experienced in getting into the boat; the royal ladies had to be literally dropped and caught. When the boat was still some way from the shore the breakers began to fill her."

"Before reaching the beach she filled and sank. The whole party had strapped on life belts and they floated to the surface, where they were terribly buffeted by the waves."

"The Princess Alexandra disappeared for a moment under the towering waves, but she was seized by a friendly hand, and with the others, after all had been washed off their feet several times, was dragged to safety up the shore."

The Tangier correspondent of "The Daily Mail" says they landed below the signal station and had to walk over the rocks to the lighthouse, where the Spanish gendarmes gave them some sort of dry garments."

Some of the other passengers camped on the beach and still others rode or walked into town."

A Gibraltar dispatch to "The Daily Mail" says that the Delhi, in the fog, mistook the Spartel light for another light. The vessel struck gently, and most of the women abroad gathered in the music room, with lifebelts on. One of the men played the piano to keep their spirits up, and when it was found that danger was not imminent, the passengers packed their belongings and ascended to the deck, where they waited for several hours for help. This appeared in the shape of the cruiser Friant.

The royal party were perfectly calm and went among the passengers. Amusement was caused by a gentleman who gave one of the young princesses a lucky ring, assuring her that no harm could come to the owner while wearing it. The princess immediately put the ring on her finger.

The royal party refused to leave the ship on the first French boat that came, but went ashore attended by Admiral Cradock. When close to the beach the boat capsized. All waded through the surf, after being tossed about for several minutes.

LAUGHS HERSELF TO DEATH

Merry Story by Old Friend Brings
Fatal Seizure to Woman.

Mrs. Alice Spier, fifty-two years old, of No. 129 Pearl street, went calling on her friend, Mrs. Catherine Phillips, at her home No. 246 East 24th street, last night. They were old friends, and many pleasant memories of other days were recalled. One of the incidents related amused Mrs. Spier, and she laughed so heartily she was unable to stop.

After a few moments Mrs. Phillips noticed that Mrs. Spier had grown purple in the face, and she went out to the street and asked Patrolman Conlon, of the East 24th street station, to call an ambulance.

Dr. Worrice responded from Bellevue and found Mrs. Spier dead.

CLERGYMAN FOUND DEAD
FROM VERONAL POISONING

Dr. David W. Gwilyne Believed
To Be Victim of Accidental
Overdose.

ONCE HAD A CHURCH HERE

Discovery of Body Follows In-
quiry on Failure to Rouse Oc-
cupant of Room at Har-
lem Baths.

The Rev. Dr. David W. Gwilyne, sixty years old, of No. 540 West 179th street, was found dead last night in a room on the second floor of Hollander's baths, at No. 149 West 125th street, which he had engaged earlier in the day. Beside the body there was an empty vial that had contained veronal. According to Dr. Martin, of the Harlem Hospital, who pronounced the minister dead, he had probably taken an overdose of the sedative accidentally.

Dr. Gwilyne appeared at the place shortly after 8 o'clock yesterday morning and engaged a room, telling the clerk that he did not wish to be disturbed and that he was going to take "a good sleep." It was noticed by employees that the electric light in the minister's room burned throughout the day.

Efforts to rouse him last night proving ineffectual, Patrolman Neely, of the West 125th street police station, was called by Victor Prosser, proprietor of the baths, and the door of the room was forced. The minister's body lay on the bed clad in pajamas. According to Dr. Martin he had been dead several hours. The body was identified by papers found in the clothing, and the widow of the clergyman was informed. She hurried to the hotel, accompanied by the Rev. Dr. James B. Chalmers, of No. 322 West 88th street, and identified the body as that of her husband.

Dr. Gwilyne was born in Bryn Mawr, Wales, and educated in England. He went to Nova Scotia and then came to this country. He was rector of the Holy Trinity Church, at No. 322 East 88th street, and later was called to Bayside, L. I., where he was rector of the Episcopal Church. Dr. Charles A. Brown, the present rector, said last night that he knew of Dr. Gwilyne by reputation as an exceedingly fine preacher.

Dr. Gwilyne left Bayside about seven years ago and since that time had been engaged in various mission work in this city. He leaves a wife, but no children.

LINER'S STAY TO BE BRIEF

Lusitania, Delayed by Bad Weather
Will Have Only 32 Hours in Port.

Having run at an average speed of only twenty-two knots up to noon yesterday, the Cunard liner Lusitania, scheduled to leave port for Liverpool at 4 p. m. Saturday, will not arrive here before to-morrow morning. The big liner, which on her next eastward voyage will be making her seventeenth round trip for the year, is held back by bad weather, being 75 miles east of Sandy Hook at 1:35 p. m. yesterday. She will have only thirty-two hours in which to discharge and take on her cargo and fill her bunkers with some seven thousand tons of coal.

The vessel, which has 400 westbound cabin passengers, will leave port on Saturday with 300 travellers anxious to spend the holidays in England. The Lusitania takes the place of the Mauretania, which has been eliminated from the Cunard schedule until February. The Mauretania grounded recently in the Mersey, and when put into drydock for repairs it was decided to give the vessel her annual overhauling.

HOFFMAN HOUSE TO BE
PARTLY TORN DOWN

Business Building to Take Place
of 25th Street Part of
Famous Hotel.

OTHER BIG REALTY DEALS

House of Dr. Kip Brings Record
Price for Inside Property—
James Speyer to Erect
\$200,000 Home on
Fifth Ave.

Three transactions involved valuable real estate in Fifth avenue and Broadway yesterday. One of these was the sale of the home of the late Dr. Isaac L. Kip, at No. 418 Fifth avenue, for \$700,000, a record price for property not on a corner. Another was the leasing of the old Hoffman House site, at the southwest corner of Broadway and 25th street, which will be torn down and replaced by a twelve-story business building, and the third the filing of plans for a \$200,000 dwelling house for James Speyer, head of the banking firm of Speyer & Co., at the southeast corner of Fifth avenue and 57th street. The part of the Hoffman House in the middle of the Broadway block, owned by the Kinney estate, will be continued as a hotel under the present management. The Hoffman site was leased yesterday by Louis M. Gerry through the Crutcher company, for a term of years, to Elstein, Wolf & Co., an embroidery, lace and handkerchief concern, now at Nos. 443 and 445 Broadway. It is expected to have the new building ready for occupancy early next year. The plans are being prepared by John B. Snook's Sons, architects.

The hotel has played no small part in the affairs of the Democratic party, for a long time being the headquarters for Democratic leaders of the nation, state and city and their followers.

Chairman Jones, of Arkansas, also made it his headquarters when Bryan was nominated in 1896, and it was the centre for conferences in the Democratic national and state campaigns again in 1900, when Bryan ran the second time. Senator Hill was another of the famous Democratic leaders to make it his headquarters. When "Ed" Murphy was state chairman he also made use of the place for his headquarters. Even as far back as Tilden's time it was a Democratic headquarters, for Tilden and Horatio Seymour used to make the Hoffman House their stopping place.

The Hoffman House has been famous also as a betting ring of the nation for layers of odds on election and all sorts of things. Even betting Republicans were wont to go over there from the Fifth Avenue Hotel, as far back as thirty-three years ago, to put their bets down. When "Ned" Stokes, who killed "Jim" Fisk, conducted the hotel he spent a fortune on paintings, which were hung in the barroom, to which they attracted thousands of persons, to the great profit of the management.

In the fall of last year it was announced that the Hoffman House, for the second time within a dozen years, had gone into bankruptcy and would close its doors. It was not until the spring, however, that the hotel was closed, but it was only for a short while, and it opened again.

The plot upon which the site stands contains about 12,000 square feet, being 55 feet on Broadway and 217 feet in 25th street, and extending through to 24th street. The new building to be erected will have nine elevators and entrances on Broadway. A large part of the structure is to be occupied by the lessees, and adjoining that the widow of the late Dr. Kip is to be given a portion of the building.

Plans for Mr. Speyer's house were filed yesterday by Horace E. Trumbauer, who drew the design and will supervise the construction work. The site for it was acquired a year ago, in two sections, by Mr. Speyer. It will have a frontage of 60 feet on the avenue and 190 feet in the street. The facade is to be of the modern French style, ornate, with a balcony and Corinthian columns, four of which will be on the street side and six on the avenue. An elevator will be installed in the building. Entrances will be from Fifth avenue and the street.

INSIDE REALTY AT TOP PRICE

Dr. Kip's House Brings \$700,-
000, or \$193 a Square Foot.

The home of the late Dr. Isaac L. Kip, at No. 418 Fifth avenue, between 25th and 26th streets, has been sold for about \$700,000. The sum is said to be the largest paid in the city for property not on a corner. The buyers of the site are F. V. and J. H. Burton, large real estate holders in that part of the city.

The house was once the home of William V. Brady, one of the early mayors of this city, whose heirs have owned the property for nearly a century. The original owners of the family included all the Fifths, with the exception of the Wendel home, at the northwest corner of 38th street.

The price at which the property was purchased shows a rate of \$193 for a square foot, which is the highest known record for inside property in the city. The best comparison of the rise is furnished by the sale in 1904 of the Columbia Bank property to Felix Frankfurter, who also acquired at the same time the adjoining southwest corner of 42d street, paying at the rate of \$150 a square foot for the inside piece. Last year the Farmers' Loan and Trust Company paid \$100,000 for a lot 16x28 feet at the southwest corner of 41st street and Fifth avenue, and the Hixley estate sold the northwest corner of 40th street and Fifth avenue five years ago to M. Knoedler for \$50,000, or \$100 a square foot.

The house is a four-story and basement structure, with a frontage of 60 feet on the avenue and extending back 190 feet. At the north of the property is the Clark estate, which was leased last year to the Whitcomb Brass Bed Company, which subsequently leased it to the Mirror Candy Company, and adjoining that and forming the southwest corner of 40th street is a ten-story building, owned by Edward M. Knox. This site, which measures 38x110 feet, was purchased by Mr. Knox in 1901 for \$120,000. The sale was negotiated by Trust, Speyer & Co.

EX-CHAPLAIN ACCUSED
OF INSTIGATING CRIME

Soldier in Confession Involves
the Rev. Mr. Brewer in Fort
Riley Explosions.

GIVES REVENGE AS MOTIVE

Prisoner Says He Blew Up
Bridge, Stables and Water
Mains at Brewers Sug-
gestion—Woman
Also Held.

Junction City, Kan., Dec. 13.—The Rev. Charles M. Brewer, formerly a chaplain in the United States Army, now a pastor of a Baptist Church in Olustee, Okla., has been accused in a confession by Private Michael Quirk of implication in a mysterious series of explosions which have baffled military authorities at Fort Riley for six months.

Brewer was arrested at Olustee to-day. Mrs. Anna Jordan, of Kansas City, also implicated in Quirk's confession, was arrested to-day in Kansas City, following a telegram to the police.

Army officers at Fort Riley to-night said that additional arrests might be expected. It was said the persons under surveillance are prominent. The investigation has been going on some time, but it was not until to-day, after the arrest of Brewer and Mrs. Jordan, that Colonel Eli D. Hoyle, 6th Field Artillery, commandant at Fort Riley, gave out the confession of Quirk.

Quirk in his confession said he blew up the bridge across the Kaw River June 24 last, and the cavalry stable June 30, when twenty-five cavalry horses were burned to death. He said also that he blew up the water main which supplied the post with water. Quirk declared he committed these crimes at the instigation of Brewer, who sought revenge because he had been court-martialed and dismissed from the service for conduct unbecoming an officer and a gentleman.

Mrs. Anna Jordan, implicated by Quirk, is the wife of a convict in the federal penitentiary at Fort Leavenworth. She was arrested here several months ago for aiding her husband to escape from the guard house, where he was confined on a charge of stealing. He was recaptured and sent to the federal penitentiary. Mrs. Jordan was released.

"On Way to Blow Up a Bridge."

Quirk in his confession alleged he met the former chaplain, and Mrs. Jordan in an automobile on the road between Junction City and Fort Riley. He said Brewer told him they were on the way to blow up the bridge, and asked him to go along. Quirk said he placed the explosive.

Quirk has been in the guard house on suspicion of connection with the explosion for nearly a month. Last night he sent for Colonel Hoyle and made the confession.

Explosions and fires here within six months have destroyed government property valued at \$500,000. A big storehouse on the maneuver grounds burned, with a loss of \$200,000. Since Quirk's arrest there have been no fires. It was said at the post to-day that others have been implicated and that more arrests will follow.

Brewer was born in Alabama thirty-four years ago. He became chaplain in the United States army in 1907. He was chaplain of the 6th Field Artillery, stationed at Fort Riley, until he was dismissed from the army, June 21 last, after conviction by court martial of charges of having been intoxicated at an enlisted men's dance at the fort and with behaving in an ungentlemanly manner in the presence of enlisted men and their wives on March 31 last. He is married and has several children.

Oklahoma City, Okla., Dec. 13.—The Rev. Charles M. Brewer, charged with implication in a series of recent dynamite explosions at Fort Riley, Kansas, was arrested at his home in Olustee, Okla., to-day. The deputy who made the arrest refused to say where he boarded a train to-night. It is believed Brewer is being taken to Fort Riley.

A dispatch from Olustee, a small town in the southwestern part of the state, brought this information to-night. Mrs. Brewer, wife of the minister, declined to discuss her husband's arrest.

Kansas City, Mo., Dec. 13.—In the master's room at police headquarters, where she has been held awaiting the arrival of federal authorities from Fort Riley, Mrs. Anna Jordan, charged by Private Quirk in a confession at Fort Riley with complicity in the dynamite plot at the fort, heard to-night why she was arrested. She had not been permitted to read the papers to-day, and when a reporter told Quirk's confession, Mrs. Jordan laughed and said it was "ridiculous."

"I never heard of Quirk," said Mrs. Jordan. "I hardly knew Chaplain Brewer and never was in a motorcar with him, as Quirk charges. I was in St. Louis with relatives at the time the explosions occurred."

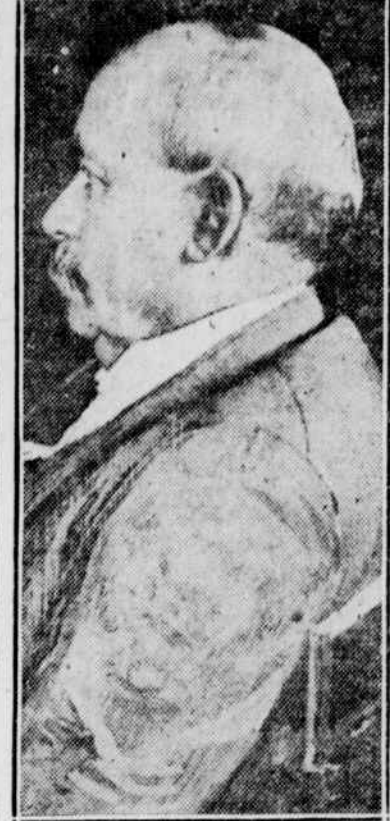

Leavenworth, Kan., Dec. 13.—Frederick Jordan, military convict and husband of Mrs. Anna Jordan, talked about his wife's arrest in his cell to-day. Jordan said it would have been impossible for Mrs. Jordan to have been implicated in any way with the explosions. He declared she was at her home, in St. Louis, at the time of the explosion.

Jordan, who is a soldier, was confined in the guardhouse at Fort Riley for larceny at the time of the explosions. While thus detained his wife, it is charged, furnished him with an army rifle and he escaped. He was captured the following day, however, and sentenced to the military prison here.

EIGHT-FOOT SHEETS LAW VOID.

Norfolk, Dec. 13.—The law passed by the Legislature of Virginia requiring hotels to furnish sheets at least eight feet long to all beds was to-day declared to be unconstitutional by Police Justice Duncan, of Norfolk, before whom a test prosecution was brought. The state appealed.

TO CELEBRATE TREATY

Centenary of Pact Signed at
Ghent To Be Observed.

[By Cable to The Tribune.]
London, Dec. 14.—Preparations are now being made in this country to celebrate the centenary of the Treaty of Ghent. Earlier in the year a Parliamentary committee was formed to promote arbitration between Great Britain and America, with Sir Philip Magnus as chairman, and this committee has now decided to form a larger body, which will proceed to consider what actual shape the celebrations should take.

The opening meeting will be held in Caxton Hall, Westminster, to-day, when it will be proposed to invite Lord Grey to become a member of the British committee. An executive committee will be appointed, and the work of the organization will begin with the new year.

LOSES \$75,000 IF SINGLE

Charles Corbin Must Disclose
Secret on Saturday.

[By Telegraph to The Tribune.]
Hartford, Conn., Dec. 13.—If Charles Corbin, the only son of the late Philip Corbin, of New Britain, who founded and was first president of the Hardware Trust, can prove to the judge of the New Britain Probate Court on Saturday, the date of the distribution of the millionaire's estate, that he is married he will get \$150,000; otherwise he will collect only one-half that amount.

Charles Corbin was married once, but his wife, who was Lillian Blakeslee, of New Britain, secured a divorce from him while he was living in Oak Bluff, Mass. According to the terms of his father's will he will get \$150,000 if married on December 16, or one-half if single. He refuses to discuss the case, but his friends declare that he is still single.

The administrators of the estate will make their report at the hearing on Saturday, and the millionaire's estate then will be distributed.

MORTARS TO BE TESTED

Warnings Sent to Those Living
Near Fort Totten.

For the first time in years a battery of mammoth mortars hidden in the depths of Fort Totten, at Willets Point, Long Island, will be engaged in "proof firing" to-morrow morning, and Colonel Adelbert Cronkhite, commanding the coast artillery at that fort, has sent out a notice to the residents of the North Shore to get ready for the disturbances, which will shake up the different villages.

Every mile of territory within range of the big guns in Fort Totten and Fort Sumner, over on the Westchester side, is plotted out like the squares on a checker board, and with their range finders and searchlights, experts in big guns declare they can drop bomb shells weighing several hundred pounds in any designated square with mathematical accuracy. While other countries to a great extent have abandoned the mortar as an effective engine of war, United States ordnance officers say their efficiency, so far as Uncle Sam is concerned, remains unquestioned. Dummy shells will be used in the "proof firing."

TRAIN KILLS TWO IN AUTO

Atlantic City Express Crashes
Into Machine at Crossing.

[By Telegraph to The Tribune.]
Camden, N. J., Dec. 13.—Walter A. Junge, of West Berlin, N. J., and William Young, of Philadelphia, were instantly killed when an Atlantic City express of the Reading Railroad struck an automobile at Lawnside, about seven miles from Camden, this evening.

The automobile was wrecked and then burned, making it impossible to discover its make or number.

The crash occurred at Browning Lane, considered one of the most dangerous crossings along the line of the railroad. It is guarded only by an electric alarm bell.

BUFFALO MAYOR ACCUSED

Council Charges That He Put
City Money in Own Name.

Buffalo, Dec. 13.—Charges were made in the Council to-day that Mayor Louis P. Fuhrmann, a Democrat, had deposited \$5,000 of the city's money to his personal account. The money was said to be part of a \$10,000 appropriation for investigating the cost of electric light and power to the city.

A special committee, Councilmen Bull, Ferr and Seigrist, presented a resolution calling on the Mayor to give a complete account of the money he had deposited. He himself proposed. The resolution was adopted unanimously.

Mayor Fuhrmann, who is also a Democratic State Committeeman, is seriously ill in his home, and no direct answer to the charge could be obtained from him. His friends say he courts the fullest investigation and they are confident that he will be exonerated.

Audemar Opera Glasses—powerful, distinct definition. Spencer, Importer, 7 Maiden Lane.—Advt.

HOUSE, 300 TO 1,
VOTES TO ABROGATE
RUSSIAN TREATY

Sulzer Resolution Passed, George
R. Malby Being Its Only
Opponent.

DEBATE WAS VITRIOLIC

All Attempts to Modify Language
Accusing Russia of Violating
Treaty by Discriminating
Against American Jews
Overwhelmingly De-
feated.

M'CALL URGES ARBITRATION

Republican Leaders Deprecate Intem-
perate Language—Time for Con-
gress to Act Without Further
Delay, Says Sulzer, Clos-
ing Debate.

[From The Tribune Bureau.]
Washington, Dec. 13.—By a vote of 300 to 1 the House to-day adopted the Sulzer resolution demanding the termination of the treaty of 1832 between the United States and Russia because of the latter country's refusal to honor the passports of American citizens of Jewish faith. George R. Malby, a New York Republican, representing the 25th Congress District, was the only member of the House recorded against the resolution.

On a viva voce vote the resolution passed without a dissenting voice, but in order to demonstrate the earnestness of the House Representative Sulzer asked a rollcall, and three hundred "ayes" emphatically responded.

The resolution as adopted declares that—

The government of the United States will not be a party to any treaty which discriminates, or which by one of the parties thereto is so construed as to discriminate, between American citizens to American citizens, on account of race and religion; and, in the judgment of the Congress, the said treaty, for the reasons aforesaid, ought to be terminated at the earliest possible time.

The House debated the resolution upward of six hours, more than fifty members speaking in its favor. Representative McCall, of Massachusetts, suggested that the question of American passports should be submitted to arbitration before the House took drastic action, but the suggestion met with no favor.

All Amendments Rejected.

Representative Mann, the minority leader, and Representative Olmsted, of Pennsylvania, offered amendments to tone down the apparent harshness of the original Sulzer resolution, but these amendments were overwhelmingly rejected, the vote on Mr. Olmsted's proposition being 184 to 115. The House preferred the resolution reported from the Foreign Affairs Committee, which related that Russia had violated the treaty of 1832, and it declined to stand for the more temperate language in the Olmsted and Mann amendments, to the effect that Russia had "misconstrued" the treaty provisions, and that the treaty, therefore, should be abrogated. There was practical unanimity on both sides of the chamber that the treaty should be terminated, the only difference of opinion being as to the wording of the resolution.

While expressing his approval of the general principle involved, Representative Mann admonished some of the speakers that their language had been intemperate.

"This is a body which in ordinary times favors the movement for world peace," said Mr. Mann. "Yet expressions have been made on the floor to-day which, if uttered in a foreign parliament against the United States might bring such resentment as would provoke war. Our dealings with foreign nations should at least be respectful, and we might word this resolution differently and accomplish the same object."

Mr. Mann evidently referred to the fact that many speakers, in denouncing the refusal of Russia to honor the passports of American Jews, had characterized the attitude of Russia as "insulting," "despotic," "unjust" and "infamous."

Mr. Murray, of Massachusetts, asked Mr. Mann to explain the practical effect of the resolution.

"It abrogates the treaty," said Mr. Mann, "but it
